1. Introduction

About Our BooksLook:

Student 1: D.M Janith Sandaru Dissanayaka

01. Sell Page (Shopping page)
02. Font Size changer
03. Presentation Page
04. Article about "Books Of Harry Potter"

Student 2: P.D.Deshan Vimukthi

01. Navigation Bar/External CSS
02. FeedBack Page
03. Main Page
04. Article about "Best Beach Reads to Your Summer Reading List"
05. Link the pages

Student 3: U.Lasaru Nilhan Udawatta

01. Full Quiz Page
02. Article about "19 century Authors"
03. About Page

Student 4 : V.M.Rakhitha Dhananjan Wimalaweera

01. UI theme
02. Image Gallery
03. Site Map
04. Article about "Best Authors Ever"
05. Page Editor

All students:

01. CV
02. Anchors
03. Logo/Page Editor
04. External CSS
05. Additional Interactivity

Our Site is about online bookstore and we named it as BooksLook because we can get more attractive through the books. we Add great colour matching and made a user friendly Interface for every user can use it simply.

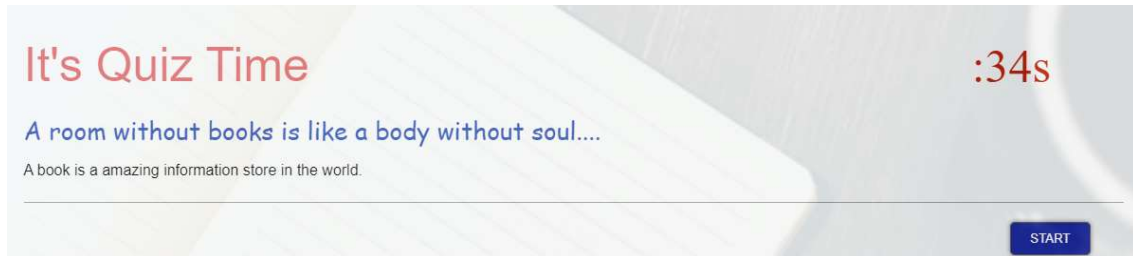

2. Technical Discussion

❖ **Full Quiz Page**

- Here Firstly I have Used start button for start Quiz and To Start Timer.

input class="st" id="start" type="submit" value="Start" onclick="start()"

- Here I created Java script for Start button. If click Start Button Automatically Start Timer.

```
function start() {  
    if (resetIF == true){//if reset is needed  
        resetq()  
    }  
    startQ = true;  
    radiobtn(false);  
    setTimer()
```

- After i opened ul and create radio buttons for answer selection

**<input class="ans" type="radio" name="q1" value="0">
<label>James Joyse</label>**

- This java script is for get values from all radio buttons for marking.

```
function check(){  
    var radios = document.getElementsByClassName("ans");  
    for (var i = 0, len = radios.length; i < len; i++) {  
        if (radios[i].checked) {  
            return true;  
        }  
    }  
}
```

```

    }
  }
  return false;
}

```

- i have Created buttons for submit Quiz, Reset Quiz and Go to top of Page.

```
<button id="myBtn"><a href="#top"></a></button>
```

```
<input class="rst" id="resetButton" onclick="resetq()" type="submit"
value="Reset"/>
```

```
<input class="Sub" id="submitButton" onClick="submitq()"
```

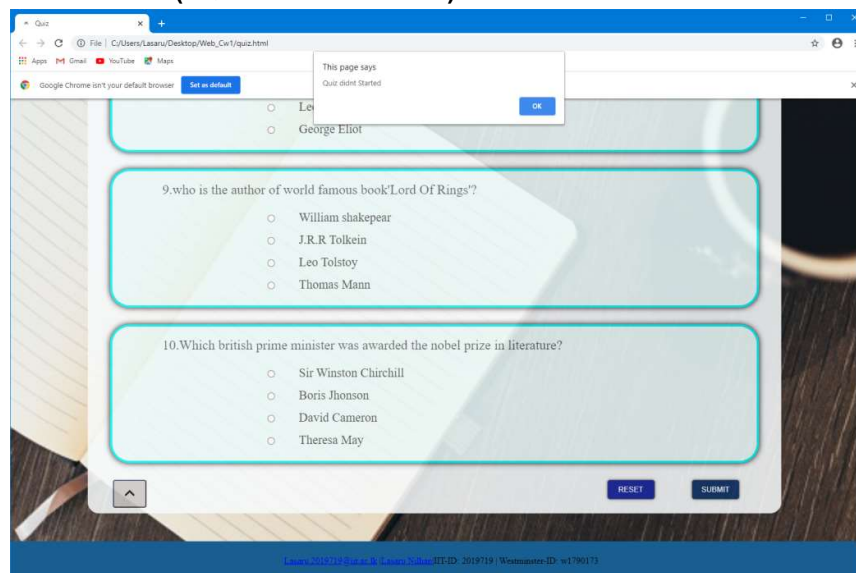

```
type="submit" value="Submit" />
```

- After i created java script for submit button.

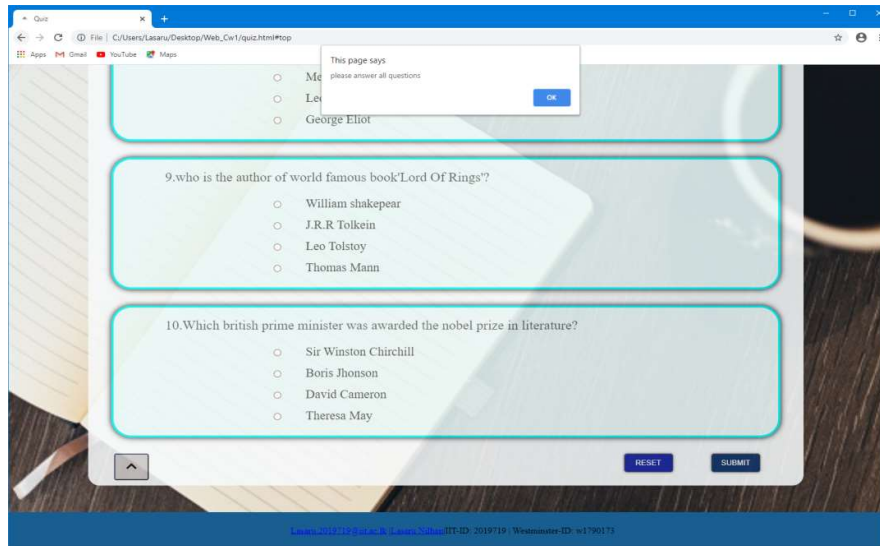

```
function submitq() {
  if (startQ == false) {
```

- If Not Click Start button and Submit Show Alert .
window.alert("Quiz didnt Started")

- If Not answer at least one, show alert

```
else if (check() == false) {
    window.alert("please answer all questions");
```

- After I set value 1 for correct answer and 0 for others for marking.

```
<input class="ans" type="radio" name="q1" value="1">
<label class="white" id="c_ans1"> Sir Arthur Conan
Doyle</label>
```

- And I created JavaScript for marking. If User select answer valued 1, Add 2 marks and indicate answer with green background. If user Select any other answer, -1 from total and indicate valued 1 answer with pink colour.

```
if (getVal("q1") === 1) {
```

```
    document.getElementById("c_ans1").style.backgroundColor = "#bef786";
```

```
    tot += 2;
```

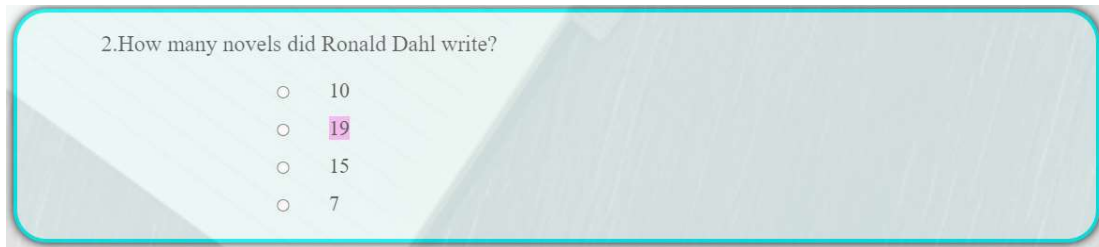

```

    } else { document.getElementById("c_ans1").style.backgroundColor =
"#f7b5f2";

    tot -= 1;

}

```

2.How many novels did Ronald Dahl write?

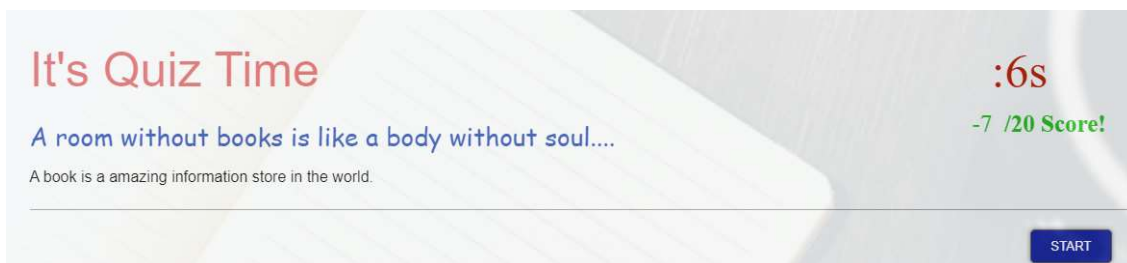

☐ 10
☒ 19
☐ 15
☐ 7

- If Click Submit Show user's Awarded Marks.

```

showScore = tot + "&nbsp; <strong>/20 Score!</strong>";
document.getElementById("Scoring").innerHTML = showScore;}

```

It's Quiz Time

A room without books is like a body without soul....

A book is a amazing information store in the world.

:6s

-7 /20 Score!

START

- And I created java script to reset button. If click reset , reset timer, reset awarded marks, reset selected radio buttons and reset indicated correct and incorrect answers.

```

function resetq() {
    radiobtn();
    var labels= document.getElementsByClassName("white");
    for (var k = 0; k < labels.length; k++){
        labels[k].style["background-color"] = "rgba(255,51,62,0)";
    }
    var radios = document.getElementsByClassName("ans");
    for(var i=0; i < radios.length;i++){
        radios[i].checked = false;
    }
    clearTimeout(timer);
    document.getElementById("Scoring").innerHTML = "";
    document.getElementById("timing").innerHTML= "";
    seconds = 1000 * 40;
}

```

```
tot = 0;
startQ = false;
quizzes = false;
resetIF = false;
}
```

- I created Timer for my quiz. So I Created Java script for 40 seconds.

```
function setTimer() {
```

```
  if(secs == 40000)
```

```
    timer = setInterval(setTimer, 1000)
```

```
    secs -= 1000;
```

```
    document.getElementById("timing").innerHTML = ":"+ secs/1000+"s";
```

- If user can't answer all questions on time, Quiz Auto Submit.

```
  if (secs <= 0) {
```

```
    clearInterval(timer);
```

```
    window.alert("oops !!! Time Over");
```

```
    radiobtn(true);
```

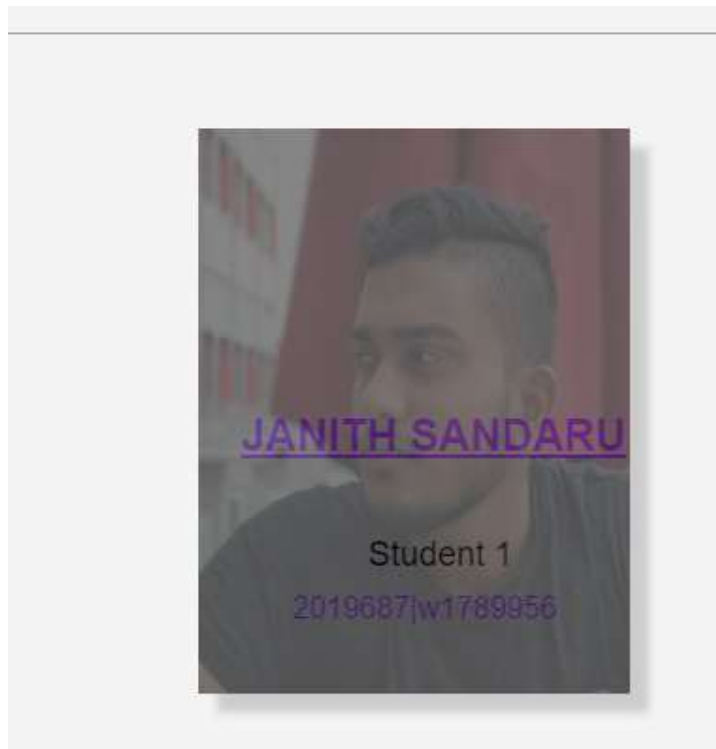

```
    submitq();
```

```
  }
```

```
  document.getElementById("timing").innerHTML=":"+ seconds/1000+"s";
```

```
}
```

❖ **Full About page**

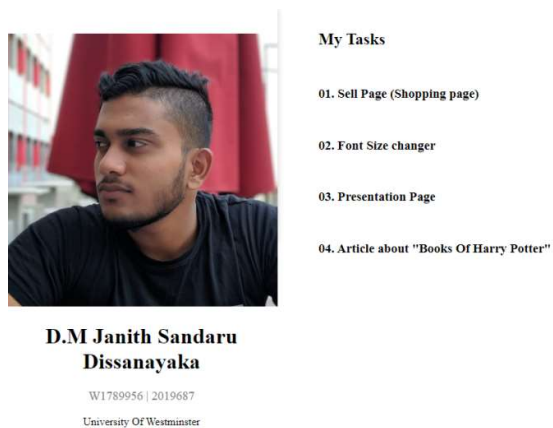

- Here i have used little opacity for when pointer on column to get more attractive for about page.

```
.column:hover .view { opacity: 0.8; }
```

- And also i created little transformation effect , If pointer on student column, Name is transform to top .And i set 0.2s delay and 0.3s duration for it.

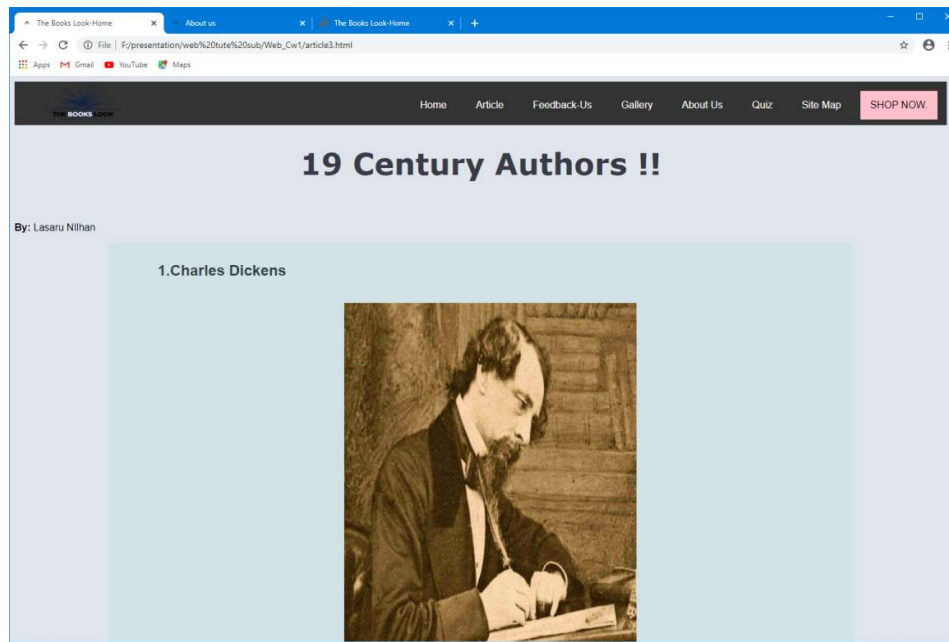

```
text-transform: uppercase;  
transition-delay: 0.2s;  
transition-duration: 0.3s;
```

- Here all transformation name is created as a link. If user click on name , open that developer information tab.

```
  
<div class="view"><a href ="AboutPerson1.html">
```

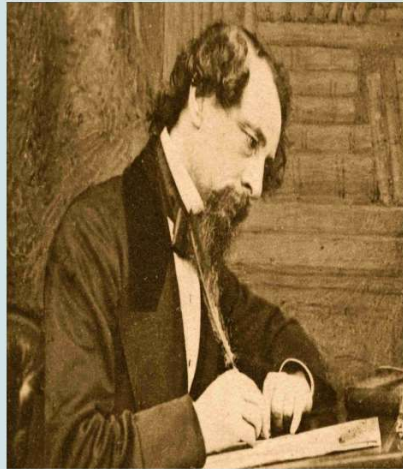

❖ Article 3- 19th Century Authors

- Firstly I have used good css style for this page for give eye catching reading for user.

```
background-color: rgba(206, 226, 231, 0.768);  
padding-top: 10px;  
padding-right: 30px;  
padding-bottom: 50px;  
padding-left: 80px;  
margin-bottom: 10px;  
margin-right: 150px;  
margin-left: 150px;
```

1.Charles Dickens

- Here I have added big author picture for every author for get user friendly interface and get more beauty.

style="width:470px;height:545px;padding-left: 300px;

Charles Dickens (1812–1870) was the most popular Victorian novelist and is still considered a titan of literature. He endured a notoriously difficult childhood yet developed work habits which allowed him to write lengthy yet brilliant novels. There is a myth that his books are so long because he was paid by the word, but rather he was paid by installment and his novels appeared serially over weeks or months.

In classic books, including "Oliver Twist," "David Copperfield," "A Tale of Two Cities," and "Great Expectations," Dickens documented the social conditions of Victorian Britain. He wrote during the Industrial Revolution in London and his books often concern the class divide, poverty, and ambition.

- Here i have add little border and blue colour for background in description for display description better than normal one.

border: 1px solid black;

padding: 10px;

background-color: rgba(150, 225, 236, 0.653);

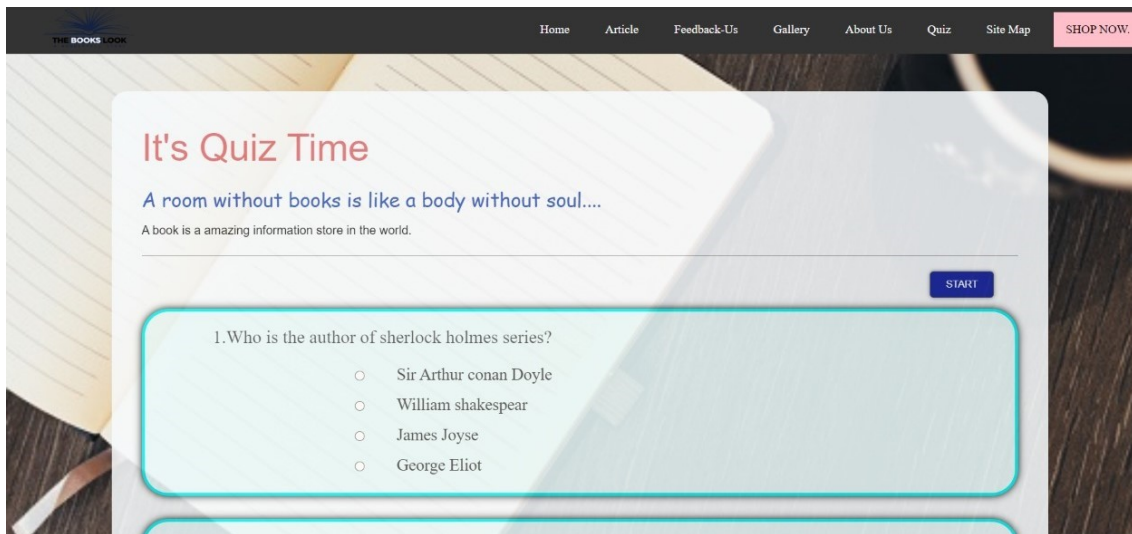

- In this page, user get some time for reading article so we decided to set good font for page. So we added 'IBM plex sans' for comfortable reading for user.

font-family: 'IBM Plex Sans', sans-serif;

3. Discussion of UI and application of UX principles

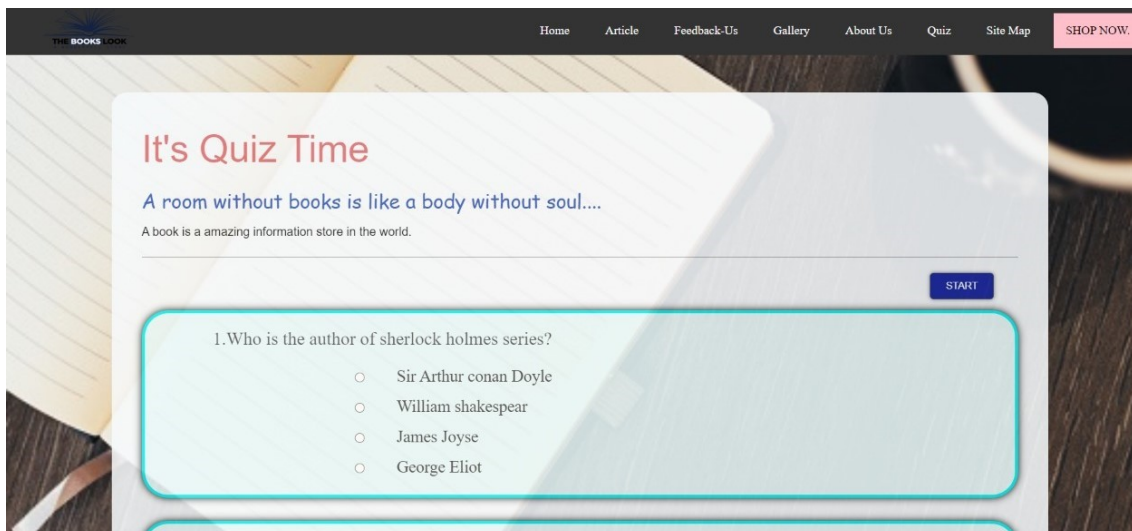

Max 1000 words

❖ Full quiz page

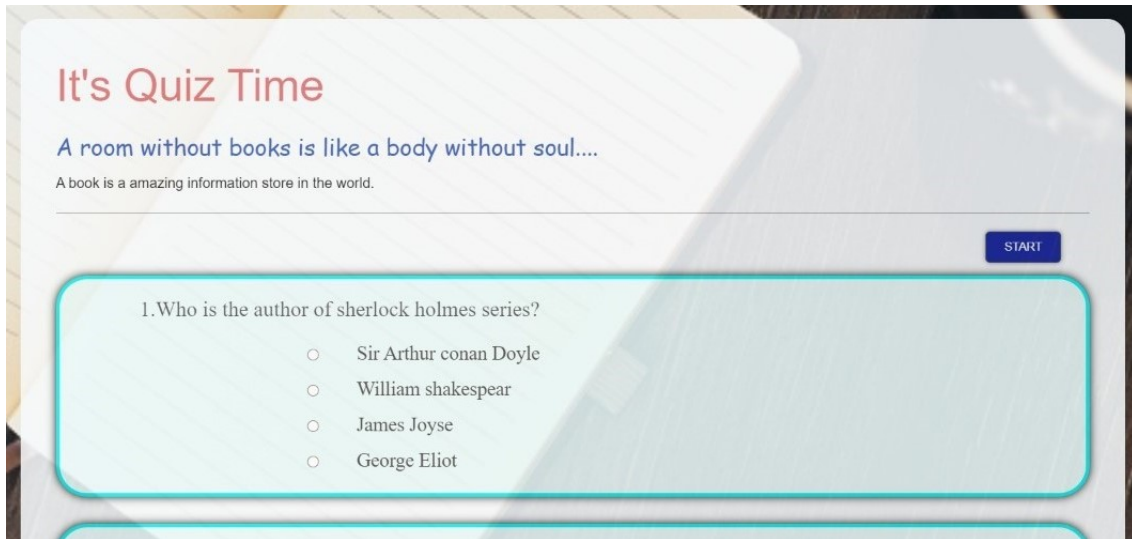

- Here I Have used simple background to my quiz. Firstly i Added Our Background image to my page. All of group members use same background image for Prove Our teamwork. And other body stylings are same as Normal one.

background-image: url('../pic/stu2/img/notebook.jpg');
background-position: center center;

- Here i have used great font colour and , font and font size for my main header because it must be have a good look as Text where in the top of my page. So i have used 'oswald' for this.

font-family: 'Oswald', sans-serif;
color: rgba(207, 0, 8, 0.56);
font-weight:normal;
font-size:50px;

- After I have Used Div Class for Separate Questions and Answers From Background and get more attractive. I Added 85% opacity for this for Display Background image and get transparency look for page. I used light blue background colour for this layout and curved edges for get more attraction.

z-index: 2;
opacity: 85%;
height: 90%;
width: 1200px;
margin: 50px auto;
padding: 20px;
background: #f7fafc;
border-radius:20px;

○ Hamlet

8.who is the author of world famous book'War and Peace?

○ Hermen Helville
○ Mercel Proust
○ Leo Tolstoy
○ George Eliot

9.who is the author of world famous book'Lord Of Rings'?

○ William shakepear
○ J.R.R Tolkein
○ Leo Tolstoy
○ Thomas Mann

10.Which british prime minister was awarded the nobel prize in literature?

- And I added blue colour edged border and light blue colour background for every question and answer field for get more attraction for most important part in my page.

```
border-radius: 35px;
border: 4px solid #05f2f2;
padding: 20px;
height: 200px;
margin: 20px 20px 30px;
background-color: #ebfafa;
-moz-box-shadow: 0 0 10px black;
-webkit-box-shadow: 0 0 10px black;
box-shadow: 0 0 10px black;
```

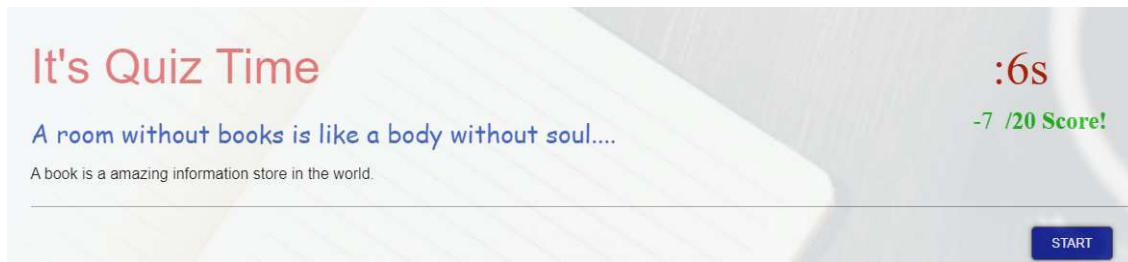

- After i have used good colour for my main buttons and if pointer on button , colour of button turn darken. I added for get more user friendly interface for my page.

```
position: absolute;
-webkit-background-clip: border-box;
-webkit-background-origin: padding-box;
-webkit-background-size: auto;
-webkit-transition-delay: 0s, 0s;
-webkit-transition-duration: 0.2s, 0.2s;
-webkit-transition-property: color, background-color;
-webkit-transition-timing-function: ease, ease;
box-shadow: rgba(0, 0, 0, 0.498039) 0px 0px 5px 0px;
color: #ffffff;
background-color: #1b29a1;
outline: 0;
text-align: center;
text-transform: uppercase;
height: 35px;
```

width: 85px;
border: 1px solid #5E5E5E;
border-radius: 5px;

- And also i added back to top button with iconic image , edged border with great background colour for more beauty.

border-color: rgba(28, 42, 84, 0.789);
background-color: rgb(204, 201, 201);
border-radius: 4px;

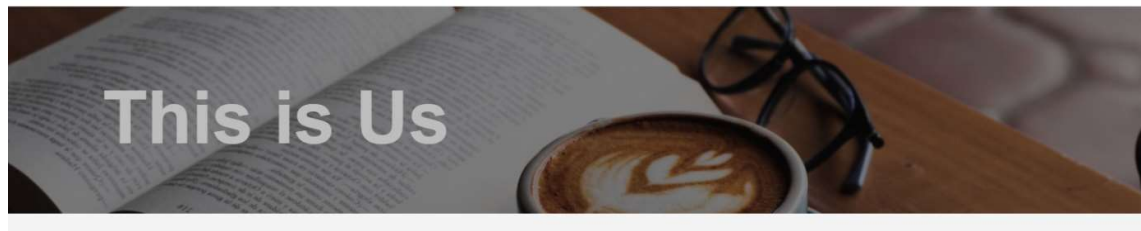

- This is another important part of my page. I added good font colour for timer and score display.

color: #bd2008;
color: #29bd24

- And also i added great font for timer and score for more beauty. So i think 'open sans' is best font for my work and i used it for this.

font-family: open sans;

❖ About page

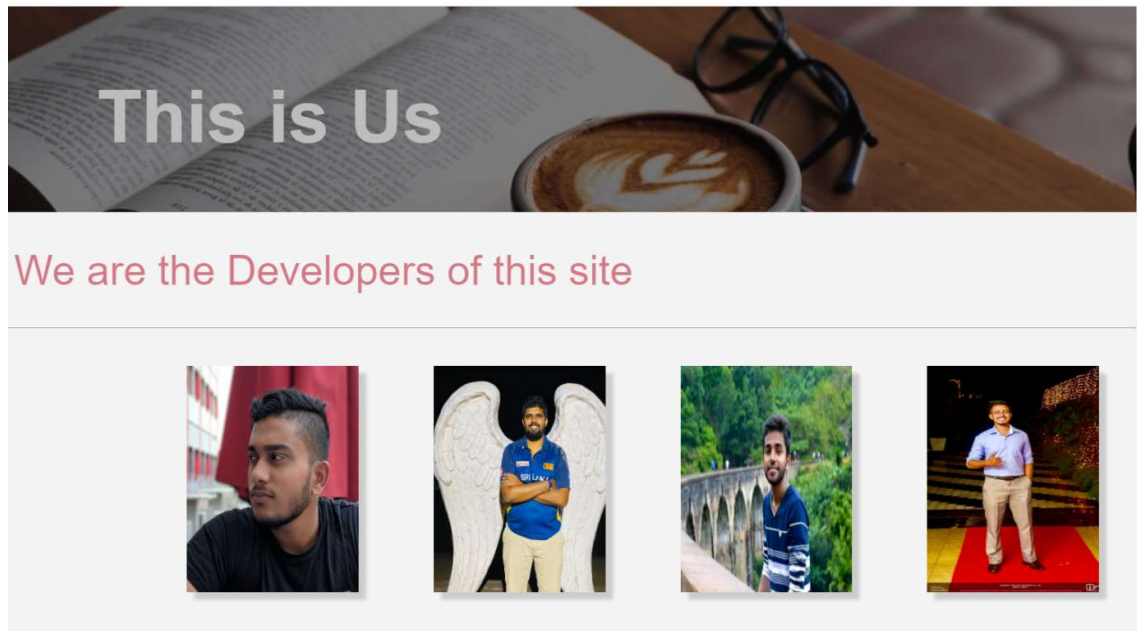

- Firstly i added image with gradient colour on top of my page for get more beauty because this is about us so this must be better one.

background-image: linear-gradient(rgba(0, 0, 0, 0.5), rgba(0, 0, 0, 0.5)), url("../pic/stu1/sell/book7.jpg");

- After i have used great font and font colour for my main header .so used 'IBM plex sans' for it because it's a great font.

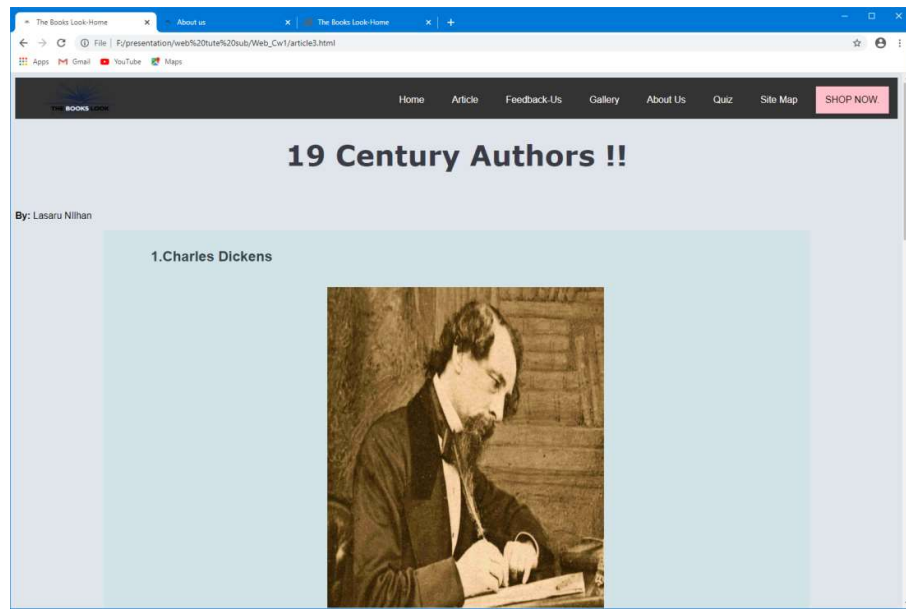

font-family: 'IBM Plex Sans', sans-serif;
font-size: 11ch;
color: rgb(189, 189, 189);

- After i added good background colour #f4f4f4 for my background

background-color: #f4f4f4;

❖ Article 3 : 19th century authors

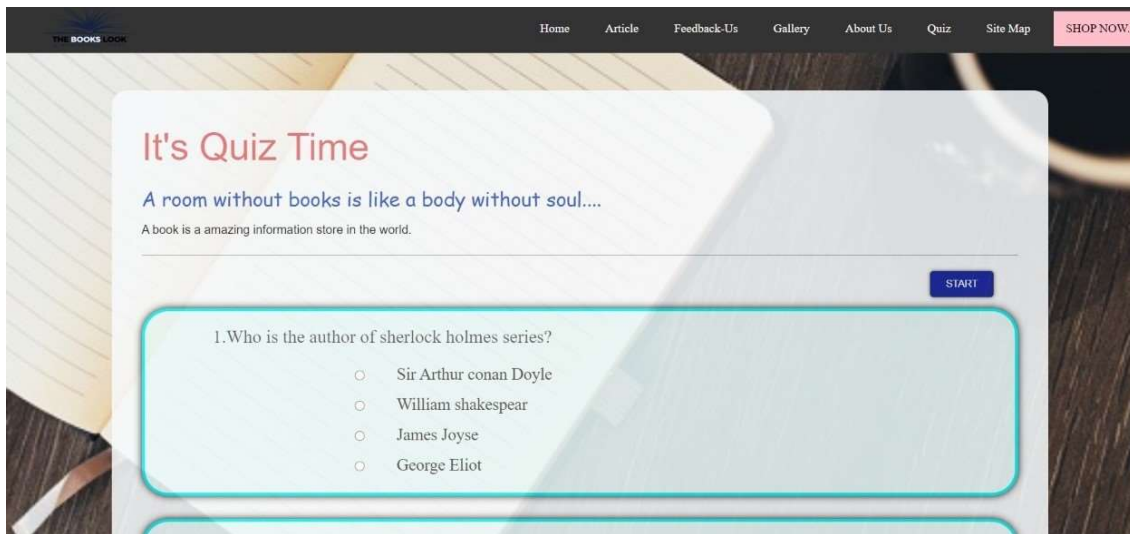

- Here i have used great background colour for my article for more beauty and give comfortable reading for user.

background-color: rgb(223, 229, 235)

3.1 Information architecture

a. Design

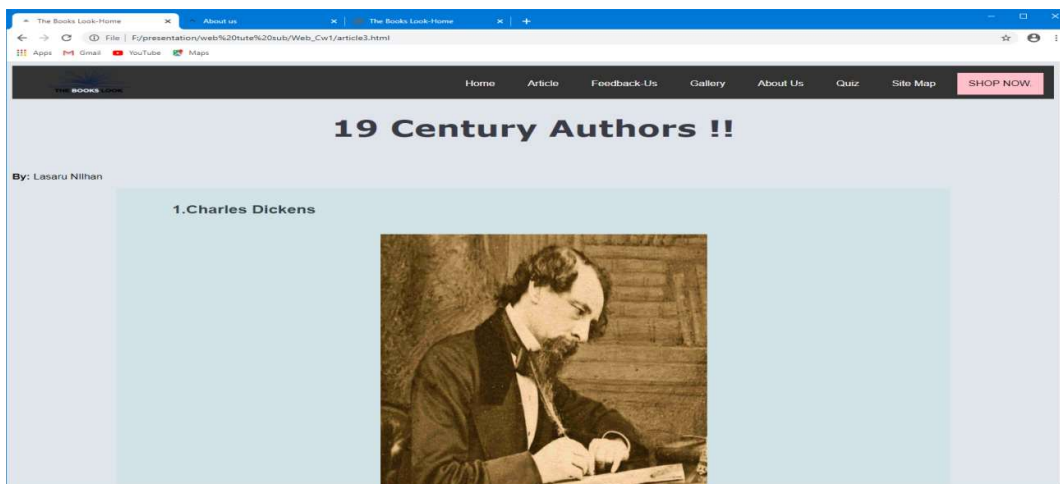

In Information architecture i have used simple quiz for user. I have used radio buttons for answer selection because give familiar look for user and easily select answers. And simple start button of top of page and reset button submit buttons are very simple And also timer and score are very simple style for look familiar to user.

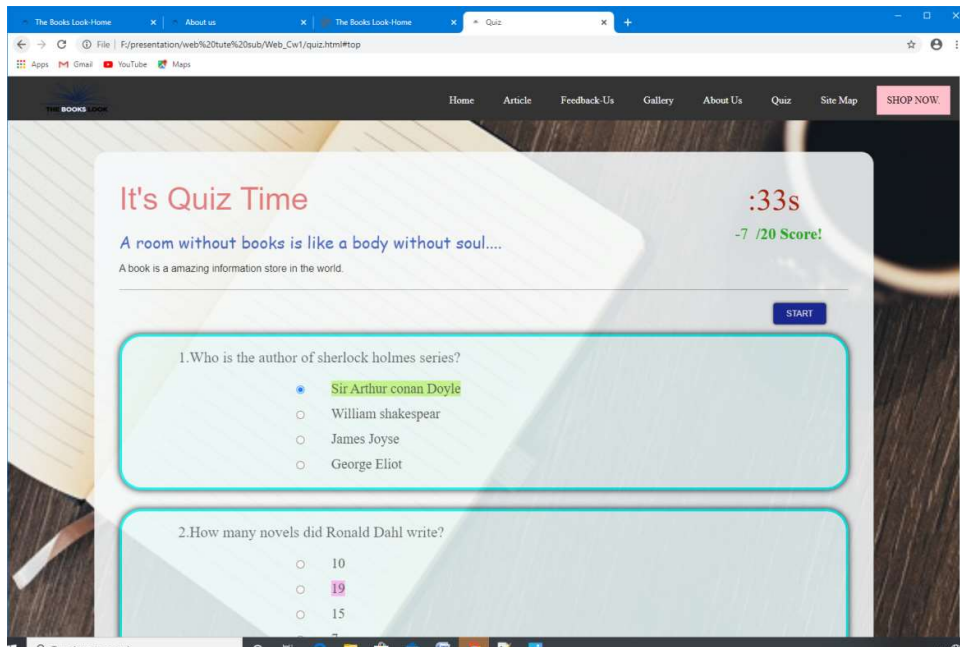

3.2 Colour balance/composition/graphics/consistency

a. Design

In our website we use #333, #195E91 and pink colour because these colours give more attraction to page. So it's comfortable to user and can get good look.

In quiz page i used simple beautiful colours for correct incorrect answers indication. These colours are #f7b5f2", #f7b5f2 .

b. Code to achieve good colour balance & ensure consistency

- I used this css part for my quiz layout :

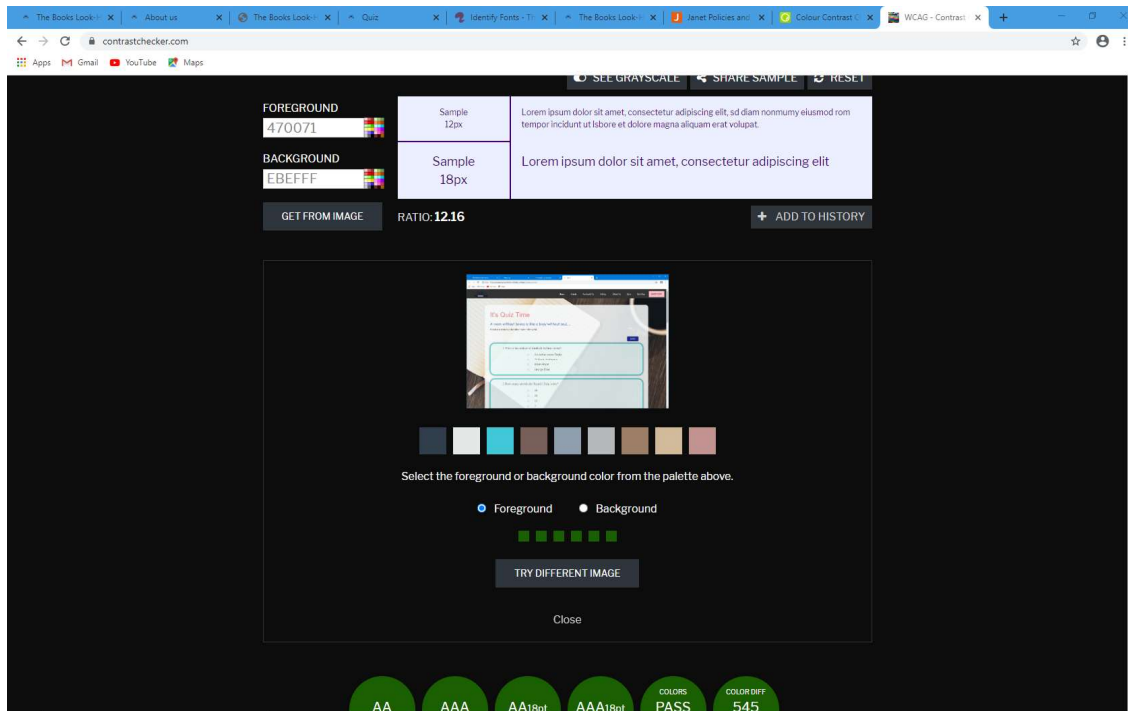

```
#all {
    z-index: 2;
    opacity: 85%;
    height: 90%;
    width: 1200px;
    margin: 50px auto;
    padding: 20px;
    background: #f7fafc;
    border-radius: 20px;
}
```

And all group members use one css part for article:

```
ul {
    list-style-type: none;
    margin: 0;
    padding: 0;
```

```
overflow: hidden;
background-color: #333;
height: 70px;
}
```

c. Colour contrast test results

3.3 Typography / consistency

a. Design

In quiz, I used one font for questions and answers because quiz must be get more clear for user.

```
.quizAnswers{
```

```
font-family: open sans;
```

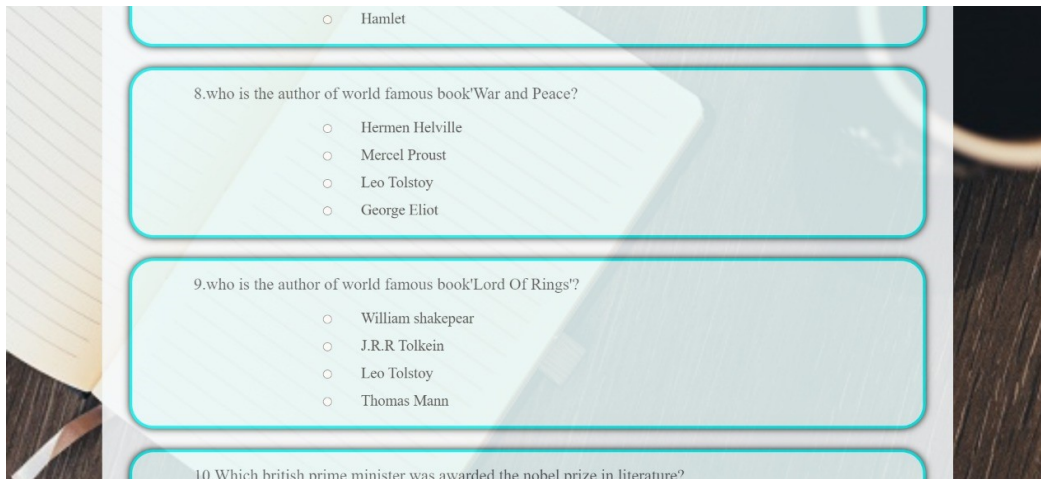

```
color: midnightblue;
```

```
font-size: 16px;
```

```
color: #424242;
```

```
padding: 4px 0 4px 0;
```

```
}
```

b. Code to achieve good typography / consistency

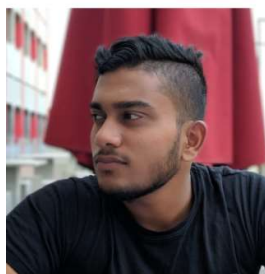

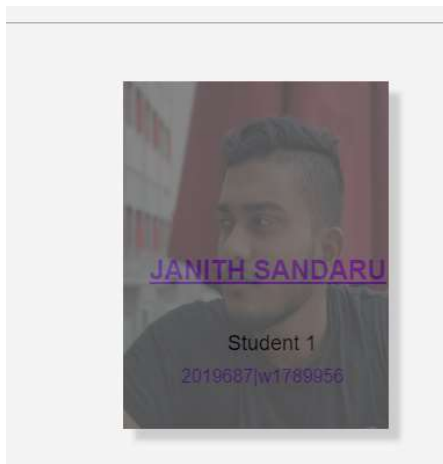

- The timer part i used cascade style sheet and proper html

```
<h2 class="timer" id="timing"></h2>
```

```
h2.timer{  
  position: absolute;  
  font-family: open sans;  
  color: #bd2008;  
  margin-left: 1000px;  
  margin-top: 1px;
```

3.4 Gestalt principles grouping

In the about page, user can easily find who are the developers of this site their names and every developer name created as a link. If user wants more details about one developer, user can click the transformation name and go to more details.

**D.M Janith Sandaru
Dissanayaka**

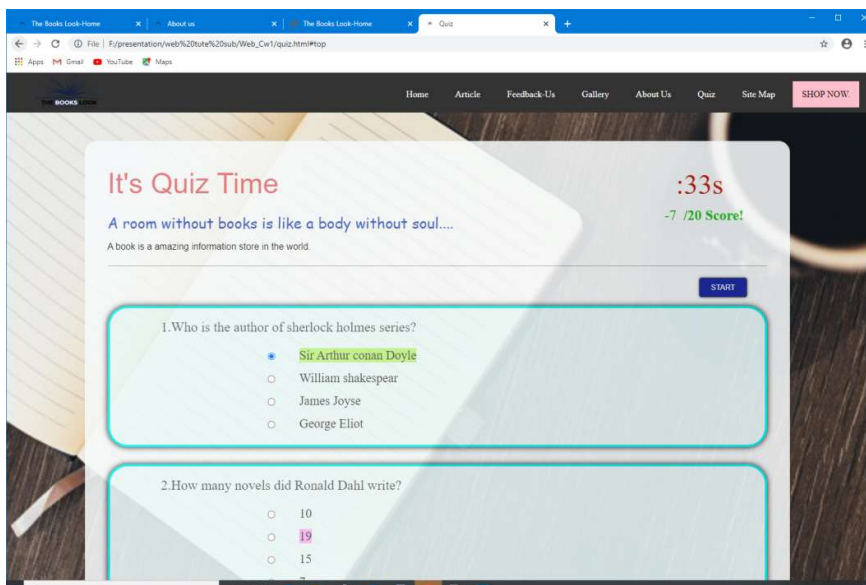

W1789956 | 2019687
University Of Westminster

My Tasks

01. Sell Page (Shopping page)
02. Font Size changer
03. Presentation Page
04. Article about "Books Of Harry Potter"

3.5 Accessibility (graphics/forms)

a. Graphical elements - Design/Code

In here user can easily recognize what answers correct and what answers answered but incorrect. So i used light green and light pink for it.

b. Form completion - Design/Code

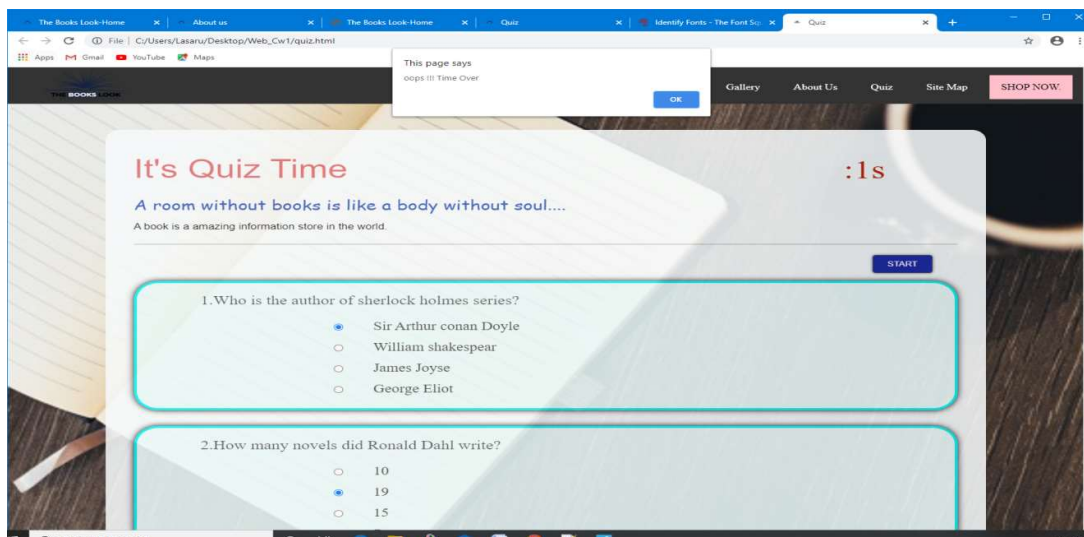

```
<div class="Container">
  <p class="questions">1.Who is the author of sherlock holmes
series?</p>
  <div id="answer1">
    <ul>
      <input class="ans" type="radio" name="q1" value="1">
      <label class="white" id="c_ans1"> Sir Arthur conan Doyle</label>
      <br>
      <input class="ans" type="radio" name="q1" value="0">
      <label>William shakespeare</label>
      <br>
      <input class="ans" type="radio" name="q1" value="0">
      <label>James Joyse</label>
      <br>
      <input class="ans" type="radio" name="q1" value="0">
      <label>George Eliot</label>
    </ul>
  </div>
```

In here developer or editor can easily find class and ids because i used simple names for these.

3.6 Error prevention and recovery

a. Design

There is an error i founded. If user can't answer all questions on time , popup warning come and stop process. So i remake java script and resolve it.

b. Code to address error prevention and recovery

So i added submit function on timer java script. Now if time is over , auto submit answers with popup.

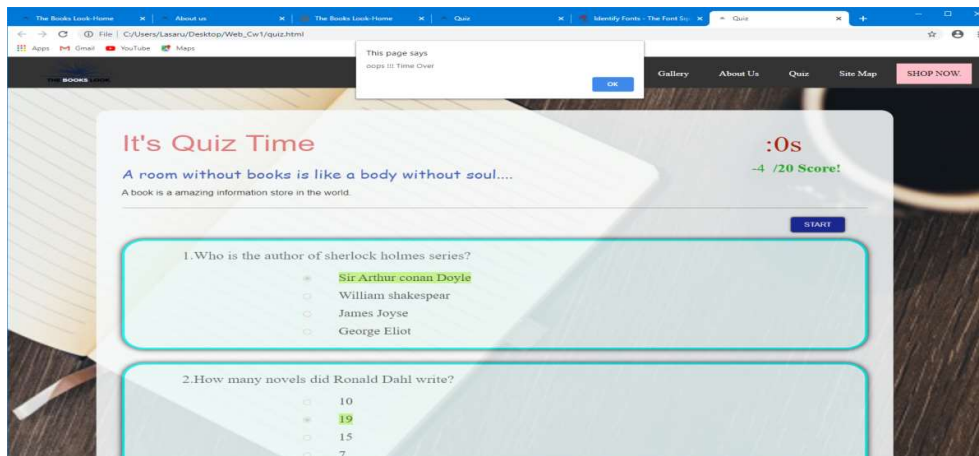

```
if (secs <= 0) {

    clearInterval(timer);

    window.alert("oops !!! Time Over");

    radiobtn(true);
```

```
submitq(
);
```

4 Janet

Whether promotional content is embedded in it or whether there is a part of the service If the customer agrees to buy, it is considered fair. Similarly, Janet was set up for that Assisting Janet to use it to transmit incorrect or aggressive information Conduct a research activity that is working properly. Under these conditions, the organization must obtain Janet's approval before beginning the operation Ensuring compliance with legal barriers and ensuring compliance Janet will not be using any of the following.

- For unauthorized access or other intentional problematic actions.
- Violation of copyright.

5 Conclusions

We decided first to make our website about book store. So when i making quiz i got huge knowledge about authors books and many other things about books. I got good experience team work and many other things in this course work . we faced so many problems and we fixed those as a team .All members worked well and we found every member's special abilities..

<h1 style="color:#3A3B47;" >19 Century Authors !!</h1><br>
</center>
<p class="authour">
<strong>By: </strong>Lasaru Nilhan
</p>

<article>

<h2 style="color:rgb(51, 64, 71);">1.Charles
Dickens</h2><br>

<p class="reading">
<br>Charles Dickens (1812–1870) was the most
popular Victorian novelist and is still considered a titan of literature.
He endured a notoriously difficult childhood yet
developed work habits which allowed him to write lengthy yet brilliant novels.
There is a myth that his books are so long because he
was paid by the word, but rather he was paid by installment and his novels appeared serially
over weeks or months.</br>

<br>In classic books, including "Oliver Twist," "David
Copperfield," "A Tale of Two Cities," and "Great Expectations," Dickens documented the
social conditions of Victorian Britain.
He wrote during the Industrial Revolution in London
and his books often concern the class divide, poverty, and ambition.</br>

</p>

</article><br><br>

<article>

<h2 style="color:rgb(51, 64, 71);">2.Jacob Riis</h2>

<p class="reading">
<br>A Danish-American immigrant working as a
journalist, Jacob Riis (1849–1914) felt great empathy for the poorest members of society.
His work as a newspaper reporter took him into
immigrant neighborhoods, and he began to document conditions in both words and images,
using the latest advances in flash photography.
His book "How the Other Half Lives" brought
awareness of the squalid lives of the poor to the greater American society and into urban
politics in the 1890s.</br>

</p>

```

```

</article><br><br>

<article>

    <h2 style="color:rgb(51, 64, 71);">3.John Muir</h2>
    
    <p class="reading">
        <br>John Muir (1838–1914) was a mechanical wizard
who probably could have made a great living designing machinery for the growing factories
of the 19th century, but he literally walked away from it to live, as he put it himself, "as a
tramp."</br>

        <br>Muir traveled to California and became associated
with Yosemite Valley. His writings about the beauty of the Sierras inspired political leaders to
set aside lands for preservation, and he has been called the "father of the National
Parks."</br>
